GEN 2 HANDCUFF TACO®

Tactical Gear

BATTLE - PROVEN

The Generation 2 Handcuff TACO® is sleeker, lighter and more versatile than the original. Like the Original TACO, the Gen 2 Handcuff TACO® fits virtually any pair of handcuffs. Contoured flexible sides wrap around cuffs to prevent snagging. Integrated shock cord provides adjustable retention. Constructed from laser-cut nylon laminate wrapped over a woven thermoplastic core, Gen 2 TACOs weigh almost 20% less than the originals. ½ inch interval MOLLE on the back of the TACO® allows for both MOLLE and belt mounting options. With the addition of an HSG OTR Cover accessory, any Gen 2 TACO® can be set up covered or open-top.
